PRANA – smart ventilation for home and office!

PRANA is a developer of energy-efficient ventilation systems with heat recovery. The patented technology based on a copper heat exchanger ensures that up to 98% of the heat and coolness in the room is retained.

The company has its own production, climate laboratory, and design department, so it guarantees the quality of each unit.

Supply and exhaust ventilation systems from Ukrainian create safe and comfortable conditions for the daily life of people around the world. Today, the company has offices in more than 40 countries and cooperates with leading universities in Ukraine and Europe.

The company's mission is to ensure healthy breathing and an environmentally friendly lifestyle for people around the world. We strive to ensure a comfortable and safe stay of people in premises of any purpose: residential, administrative, industrial.

PRANA recuperators are easy to use, reduce energy costs and prevent environmental pollution. PRANA's portfolio of completed ventilation projects includes hundreds of schools, kindergartens, and sports centers.

The company actively cooperates with international funds such as: UNDP, NEFCO, and the European Investment Bank.

PRANA recuperators offer a wide range of customization options and will perfectly match your interior thanks to the impressive selection of colors from the RAL palette.

In this catalog, you can find the available options specially designed for the elements of the recuperators, such as wind protection, inner and outer covers. This will allow you to choose the best option for any type of room and design.

The RAL system is an international color standard used in industrial design, architecture and other industries. Standards have been set for the color space, dividing it into ranges and designating each color with an unambiguous digital index. Thanks to this system, you can be sure of the accuracy and repeatability of colors, whether you are choosing a shade for wind protection or for decorative design of recuperator covers.

Our catalog will help you find the right color, taking into account the aesthetic and functional requirements of your project. Each shade has its own unique number, which makes it easy to identify and order.

By choosing colors from our catalog, you get:

High quality and durability. The RAL palette is known for its resistance to external influences, which ensures a long service life of the recuperator elements.

Wide range of products. In our catalog, you will find a variety of options to meet the most demanding tastes and aesthetic requirements.

Individuality. We use different types of finishes: matte, glossy, lacquered. Thanks to this, you can add features and individuality to your recuperator, as well as maximize its adaptation to the style and design of your interior.

We invite you to familiarize yourself with our catalog and choose the best colors for the elements of your recuperator.

IMPORTANT! The color in the catalog may differ slightly from the color on the finished product. Please contact your sales manager for more details.
